

Kobie Donovan - QLD

Hi I'm Kobie! I'm 28.

I was born in North Queensland, before moving to the Gold Coast where I remain today.

I am a teacher; recently retired athlete and I enjoy all things media.

I love life at 3 foot 7, and have had incredible moments to date. I have been fortunate to travel to 12 countries (and counting), to live in a supportive household alongside my two younger sisters, and had great success on and off the sports field.

My skills and interests are public speaking, photography and videography, I.T and educating young people.

My life experiences thus far are what drives me to change the community we live in for the long-term benefit of future short statured people.

As mentor I will be able to continue my role as an educator, and assist the short statured community.
