

## Lena Snook - WA

Hi I'm Lena,

I'm 26 and I live with achondroplasia on the land of Whadjuk Noongar boodja.

I am a Marketing and International Relations graduate and have worked in multiple industries including marketing, market research, bookkeeping and sports.

When not working, you will most likely find me drinking matcha with a good book in hand, buying yet another indoor plant, running, or hanging out with my friends.

I am also a huge fan of podcasts, traveling (I lived in Indonesia for 9 months) and fitness. Never taking life too seriously, I follow a life motto of "*more spaghetti, less regretti*" and believe true comfort can be found in nature and a good bowl of pasta.

My skills and interests are marketing, public speaking, reading, fitness, travelling, politics.

First and foremost, I look forward to the opportunity to be a role model to a mentee by using my own lived experience and skills to support my mentee. I hope that I can help my mentee overcome challenges and help them to be empowered by their difference.
